Gardens

Inspired from water machines of the Italian Renaissance and the 18th century, the hydraulic fantasies of Vendeuvre, refers to tales or legends that evoke dream worlds, amusement or contemplation : chinese bridge, temple of serenity, tortoise waterfall, crystal tree, rose maze and shell grotto with 200.000 shells.

Outstanding garden

The whole garden has been awarded the « Outstanding Gardens » label and has a strictly classical lay-out of traditional borders. That was designed to be seen from the upper floor and satisfy the eye with a sense of balance.
